

All You Need is Love

Come celebrate our LOVE for HEART this Valentine's Day!

"Flicker of Hope: Empowered HIV+ Women of Kenya" is an uplifting short documentary about women who were saved from death by the USA and Kenyan-based humanitarian organization Health Education Africa Resource Team (HEART). The women are guided on a path to realize their own potential, become self-sufficient, and support their children. Empowered with a sense of purpose, they take control of their lives to make a generational impact on their families and communities.

Following each screening, there will be a Q&A with Filmmaker Hermon Farahi and Producer Matthew J. Van Sistine and handmade African items will be for sale in Henderson's Lounge.

Tickets are \$10 or \$8 for DFS members. A drink ticket is included with each full priced ticket. Use the promo code STUDENT for a \$5 discount for children and students. All ages are welcome. Film showings at 4:30 and 5:45. Tickets may be purchased at www.denverfilm.org

All proceeds from the event will benefit [HEART](#).
